BB Centrum

A travel evening: ZILLERTAL – the heart of the Austrian Alps

WHEN: 14 October, from 5:30 pm.

WHERE: online on the BB Centrum Facebook profile

The Zillertal Valley is considered the heart of the Tyrolean Alps. And with good reason. This green valley surrounded by glaciers in close proximity to the Italian border has much to offer all age groups all year round. During summer, mountain lovers can climb three-thousand-metre peaks, investigate the gorges, go rafting or use the local via ferrata (Klettersteig). In winter, Zillertal becomes an ideal place for skiing or ski mountaineering expeditions.

Speakers: Karel and Jana Wolf

People still have to deal with their **finances and real estate**

It became clear during the first wave of the epidemic that the things that people most frequently have to deal with are their finances and property, immediately followed by their health, of course. No matter whether this involves questions associated with securing and insuring their family and loved ones or questions associated, for example, with covering their outgoings in a period full of uncertainty, Czechs want to resolve these matters with experts. The experts you need are available at the OK POINT in the Brumlovka building. Given the worsening epidemiological situation, consultations will be available in person while adhering to all the hygiene rules or online using a variety of applications.

You can book your personal consultation by telephone at: **242 486 328** or directly with the franchise holder Radim Štantejský at: **602 366 095**.

JK Jitka Kudláčková presents something new - youthful jewellery

JK has recently added something new to its portfolio that will not only appeal to the younger generation, but also to everyone who is favourably disposed towards trendy pieces. The hint of youth has been brought by the youngest member of their team of goldsmiths Martin Votava, with whom Jitka Kudláčková has cooperated on the development of the new jewellery.

The bracelets consist of coloured cords that can be simply tightened and changed and are always adorned with a selected motif from one of her collections. The circle in various colours of gold is part of the Tricolour collection, while the cross is a motif from the Love, Faith and Hope collection. Motifs from other collections will appear soon. The bracelets can be an ideal gift for younger family members or an excellent accessory for couples who want to wear something in common. It is possible to choose from colours suitable for men and women.

Come to the shop in person or choose in comfort in the jk.cz e-shop.
